### **Concept and installation**

#### Concept

This measurement software applies laser measurement technology to carry out flatness and straightness measurements. The software measures a wide range of geometric applications directly from a PC without the need of additional handheld equipment. The software connects directly to PRUFTECHNIK sensors for geometric measurement such as sensALIGN sensor, LEVALIGN expert sensor, and INCLINEO.

### Installation

The measurement software GEO CENTER is installed with the help of a standard Windows setup program. The software is available on the supplied USB thumb drive. Windows Administrator rights are required for the software installation.

- 1. Connect the supplied USB thumb drive to the PC.
- 2. Double-click 'PRÜFTECHNIK\_GEO\_CENTER\_x.x.x.exe' file to start the installation.
- 3. Click "Yes" to grant permission to run the .exe file. The following window appears.
